patterns & sequences

level 5: simple nth-term thinking

A sequence follows a rule. The term number tells us which place it is in.

1 look for the rule

Look at each sequence. Fill in the table. Then write what happens each time.

1 2, 4, 6, 8, ...

term number	1	2	3	4
term value	2	4	6	8

What happens each time? _____

2 5, 8, 11, 14, ...

term number	1	2	3	4
term value	5	8	11	14

What happens each time? _____

3 10, 15, 20, 25, ...

term number	1	2	3	4
term value	10	15	20	25

What happens each time? _____

4 1, 3, 5, 7, ...

term number	1	2	3	4
term value	1	3	5	7

What happens each time? _____

5 30, 33, 36, 39, ...

term number	1	2	3	4
term value	30	33	36	39

What happens each time? _____

2 finish the table

Fill in the missing term values.

1

term number	1	2	3	4	5
term value	2	4			

+2
each time

2

term number	1	2	3	4	5
term value	3	6			

+3
each time

3

term number	1	2	3	4	5
term value	5	10	15		

+5
each time

4

term number	1	2	3	4	5
term value	7	9			

+2
each time

3 which rule matches? ✓

Tick the rule that matches each sequence.

1 1, 3, 5, 7, ...

☐ start at 1, add 2 ☐ start at 2, add 2 ☐ start at 1, add 3

2 2, 4, 6, 8, ...

☐ start at 1, add 2 ☐ start at 2, add 2 ☐ start at 2, add 3

3 5, 10, 15, 20, ...

☐ start at 5, add 5 ☐ start at 0, add 5 ☐ start at 5, add 2

4 3, 6, 9, 12, ...

☐ start at 3, add 3 ☐ start at 0, add 3 ☐ start at 3, add 2

4 challenge ★

Find the term.

1 3, 6, 9, 12, ...

What is the 5th term?

2 5, 10, 15, 20, ...

What is the 6th term?

3 2, 4, 6, 8, ...

What is the 5th term?
