data & graphs

level 1: sorting

Sorting means putting things into groups that are the same.

1 Sort the objects by color.

Draw each object in the correct box.

red

yellow

blue

green

2 Sort the objects by shape.

Draw each object in the correct box.

circle

triangle

square

other shapes

3 Draw a line to put each object in the correct group.

toys

animals

4 Look at the groups. Circle which group has more.

Then circle which group has fewer.
