

Shapes & Geometry

Level 1 – Basic 2D Shapes

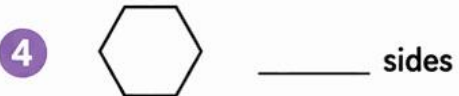

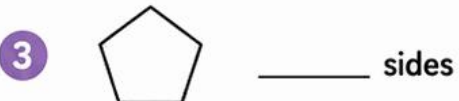

A Match the shape to its name.

- triangle
- hexagon
- circle
- oval
- square
- rectangle

B Count the sides.

C Draw the shape.

1. Draw a circle.

2. Draw a triangle.

3. Draw a square.

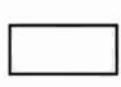

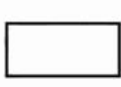

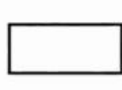

4. Draw a rectangle.

D Find and color.

Color the circles **blue** and the triangles **red**.

E Challenge!

Can you find a shape with no sides? _____

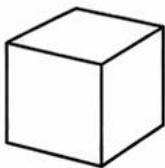

Shapes & Geometry

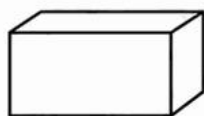

Level 2 – Basic 3D Shapes

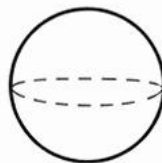

A Match the 3D shape to its name.

•

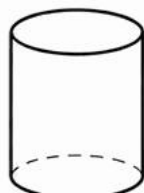

•

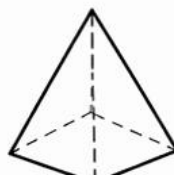

•

•

•

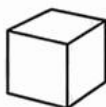

•

- sphere
- pyramid
- cube
- cylinder
- cuboid
- cone

B Count faces.

1

_____ faces

2

_____ faces

3

_____ faces

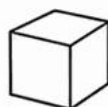

4

_____ faces

C Count vertices.

1

_____ vertices

2

_____ vertices

3

_____ vertices

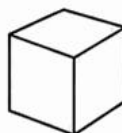

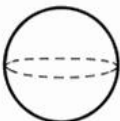

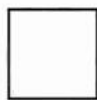

4

_____ vertices

D Find the 3D shapes.

Circle the 3D shapes.

E Challenge!

Which 3D shape can roll best? _____

Shapes & Geometry

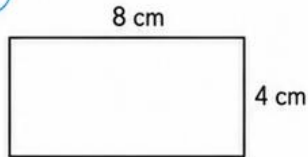

Level 6 – More Complex Geometry

A Perimeter practice.

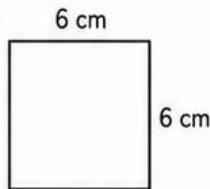

Find the perimeter of each shape. Write your answer in the box.

1

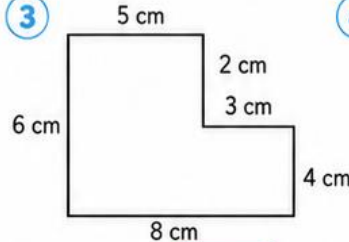

Perimeter = cm

2

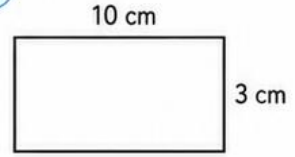

Perimeter = cm

3

Perimeter = cm

4

Perimeter = cm

B

Parallel or perpendicular?

Look at each pair of lines.
Circle your answer.

1

parallel / perpendicular

2

parallel / perpendicular

3

parallel / perpendicular

4

parallel / perpendicular

5

parallel / perpendicular

6

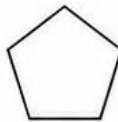

parallel / perpendicular

C

Name the polygons.

Write the name of each polygon.

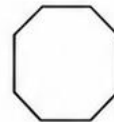

1

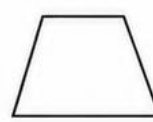

2

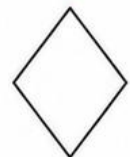

3

4

5

D

Complete the pattern.

What shape comes next? Draw it in the box.

1

→

2

→

3

→

E

Challenge!

Draw a shape with parallel sides and write its name.

Name: _____

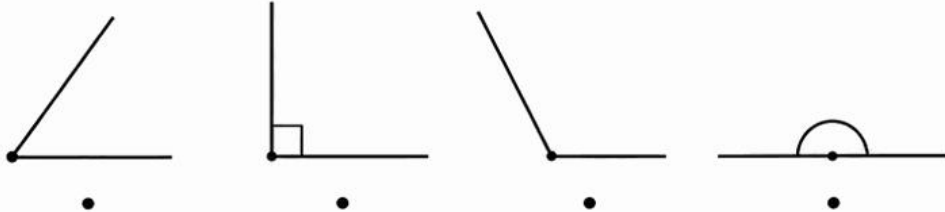

Shapes & Geometry

Level 5 – Angles

A Match the angle.

- obtuse angle
- straight angle
- acute angle
- right angle

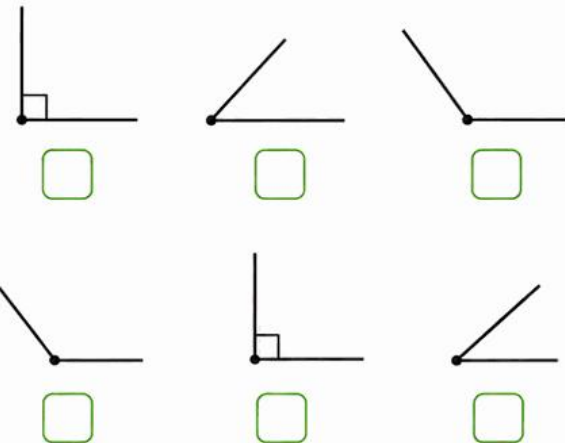

B Color by angle type.

Color acute angles **green**, right angles **blue**, and obtuse angles **orange**.

C Tick the right angles.

Tick (✓) the angles that are right angles.

D Find angles in real life.

What kind of angle can you see?

1

2

3

4

E Challenge!

Can you draw one acute angle
and one obtuse angle?

1. Draw an acute angle.

2. Draw an obtuse angle.

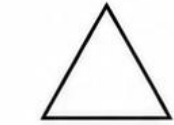

Shapes & Geometry

Level 3 – Shape Properties

A How many sides and corners?

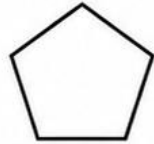

_____ sides
_____ corners

_____ sides
_____ corners

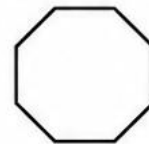

_____ sides
_____ corners

_____ sides
_____ corners

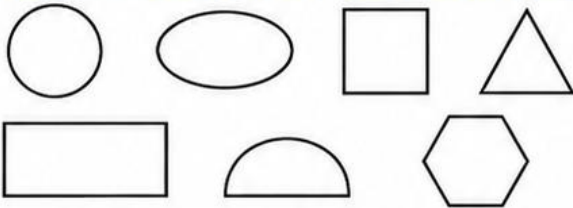

_____ sides
_____ corners

_____ sides
_____ corners

B Sort the shapes.

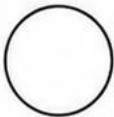

straight sides

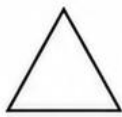

curved edge

C True or false?

	True	False
1 A triangle has 3 sides.	☐	☐
2 A circle has corners.	☐	☐
3 A rectangle has 4 sides.	☐	☐
4 A hexagon has 6 sides.	☐	☐
5 An oval has straight sides.	☐	☐

D Name the shape.

E Challenge!

Which shape has the most sides on this page? _____

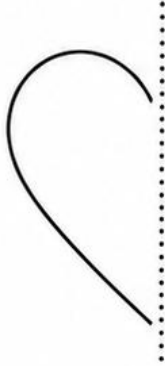

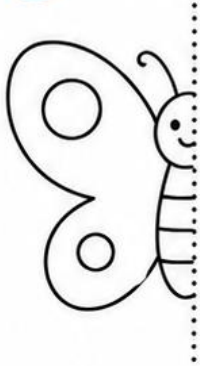

Shapes & Geometry

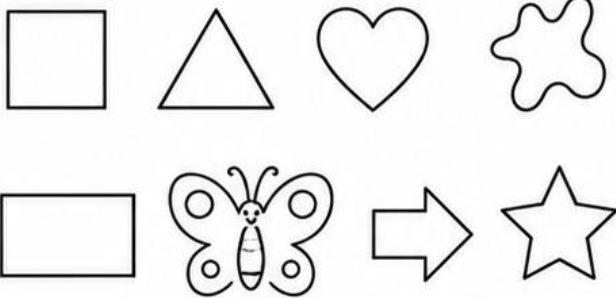

Level 4 – Symmetry

A Draw the other half.

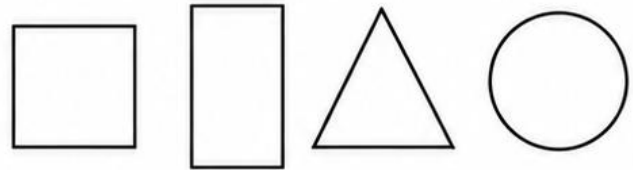

B Circle the symmetrical shapes.

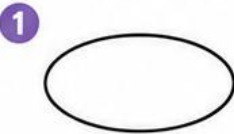

C Lines of symmetry.

Draw a line of symmetry if the shape has one.

D Yes or no?

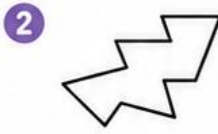

Is this shape symmetrical?

Yes

☐

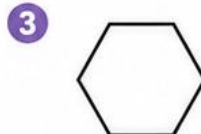

No

☐

Yes

☐

No

☐

Yes

☐

No

☐

Yes

☐

No

☐

E Challenge!

Can you draw your own symmetrical picture?
