

My Results Table

Write what you are measuring at the top of each column.

Name _____ Date _____

What am I measuring?

Try		
	units	units
1		
2		
3		
4		

What do I notice? What was the biggest? The smallest?

Data Recording Table

One column per variable. Put the quantity in the heading and the unit in the units row, then record bare numbers below.

Name _____ Date _____

What am I measuring?

Trial				
	units	units	units	units
1				
2				
3				
4				
5				
6				
7				
8				

What do I notice? Patterns, the biggest and smallest values, anything odd.

Data Recording Table

Head each column with what you measured and its units. Repeat the test so you can check your numbers.
