

Measurement

Level 2 – Mass

We use mass to measure how heavy something is.

A. Match the object to the best unit.

Draw a line to match.

1.  • g
2.  •
3.  •
4.  •
5.  • kg

B. Look at each pair. Circle the heavier object.

1.  or 
2.  or 
3.  or 
4.  or 

C. Read the scale. Write the mass of each item.

Write your answer in grams (g) or kilograms (kg).

1. 

2. 

3. 

4. 

D. Order the masses from lightest to heaviest.

Write the numbers 1 (lightest) to 4 (heaviest) in the boxes.
