

Writing a Hypothesis

A hypothesis is a testable idea, not a wish or a guess. Use the If / then / because pattern.

Name _____ Date _____

Example

If the ramp is steeper, then the car will roll farther,
because it speeds up more before it reaches the floor.

What makes a hypothesis good?

It names what you will change, names what you will measure, and gives a reason. It can turn out to be wrong - that is what testing is for.

Hypothesis 1

If _____
then _____
because _____

Hypothesis 2

If _____
then _____
because _____

Hypothesis 3

If _____
then _____
because _____
