data & graphs

level 1: sorting

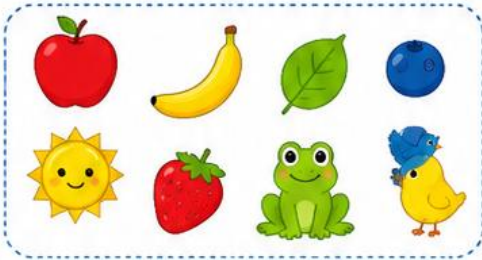

Sorting means putting things into groups that are the same.

1

Sort the objects by color.

Draw each object in the correct box.

red

yellow

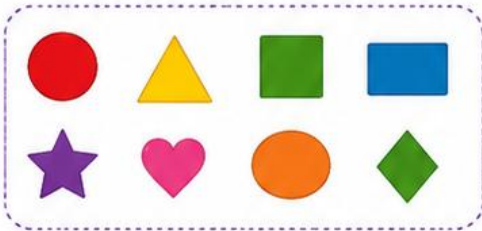

blue

green

2

Sort the objects by shape.

Draw each object in the correct box.

circle

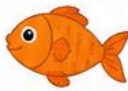

triangle

square

other shapes

3

Draw a line to put each object in the correct group.

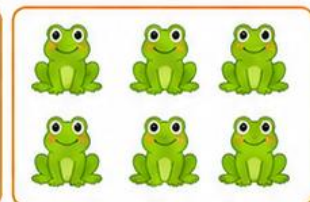

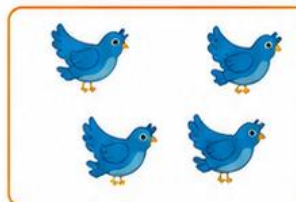

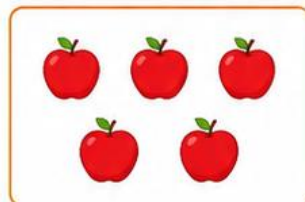

toys

animals

4

Look at the groups. Circle which group has more.

Then circle which group has fewer.
