

Measurement

Level 7 – Volume

Volume tells us how much space a 3D object takes up.

A. Count the cubes.

Write the volume of each stack.

-  = _____ cube(s)
-  = _____ cube(s)
-  = _____ cube(s)
-  = _____ cube(s)

B. Which prism has greater volume?

Circle your answer.

-  or 
-  or 
-  or 

C. Find the volume.

You may count cubes or use: $\text{Volume} = \text{length} \times \text{width} \times \text{height}$

- 
Volume = _____ cube(s)
- 
Volume = _____ cube(s)
- 
Volume = _____ cube(s)

D. Match each model to its volume.

Draw a line to match.

-  • ☐ 8 cube(s)
-  • ☐ 16 cube(s)
-  • ☐ 6 cube(s)
-  • ☐ 12 cube(s)

E. Challenge!

A box is 4 cubes long, 3 cubes wide, and 2 cubes high. It is filled completely with unit cubes.

How many unit cubes are in the box?
Write the number in the box.

_____ cube(s)
