

Elementary Science

Animal Classification Challenge

LEVEL 4

Science
Explores
a Brighter
World!

Different
animals.
Amazing
lives!

Name: _____ Date: _____

A Look at the animals and their clues.

Clues help us sort and classify!

Bat

- has fur
- feeds milk to babies
- can fly

Penguin

- has feathers
- lays eggs
- cannot fly

Shark

- has fins
- lives in water
- breathes with gills

Spider

- has 8 legs
- no backbone
- hard outside covering

B Fill in the table.

Use the clues to decide which group each animal belongs to.

Animal	Group	Evidence
Bat	_____	_____
Penguin	_____	_____
Shark	_____	_____
Spider	_____	_____

C Answer the questions.

Think about the clues and what you know about animal groups.

1. Which animal is a mammal? _____
2. Which animal is a bird? _____
3. Which animal is a fish? _____
4. Which animal is an invertebrate? _____
5. What feature helps you know a spider is an invertebrate? _____

D Challenge: What group would a dolphin belong to? Explain why.

I'm a
mammal
too!
