

A Look at the test results.

The table shows the results of some tests on different materials.

Material	Waterproof? 	Strong? 	Flexible? 
 paper	✗	✗	✓
 plastic	✓	✓	✓
 metal	✓	✓	✗
 fabric	✗	✗	✓

Different materials
have different properties!

Science
helps us
choose!

B Answer the questions.

1. Which material is waterproof and strong?

Keeps
water out!

2. Which two materials are flexible?

Can
bend!

3. Which material would be best for
a lunch box?

4. Which material would be a poor choice
for a raincoat?

Stay
dry!

C True or False?

Read each statement. Circle True or False.

1. A fair test changes one
thing at a time.

True

False

2. A waterproof material
lets water through easily.

True

False

3. Scientists test materials
to find the best one for a job.

True

False

4. Paper is a good material
for a raincoat.

True

False

Use what you know
about materials and their properties!

D Short answer.

Why do scientists test materials before
they make things?

Good choices
make a brighter world!
